THE TRUTH ABOUT THE FÜHRER

We present below Hitler's relationship with Eva Braun, and actions taken by him to prevent breast and lung cancer.

Adolf and Eva Hitler

"From our first meeting I swore to follow you anywhere--even unto death - I live only for your love." - Letter from Eva to Adolf after an assassination attempt on his life. This is a true love story... Eva loved Adolf, Adolf loved Eva. And for years destiny kept them apart as Adolf's work took him away for long periods of time. Adolf would telephone Eva every day. He called her "my little one" And at the end in the Berlin bunker, facing Russian soldiers and a fate worse than death if she stayed, Eva remained with her husband despite him ordering her to leave. She was loyal even unto death. Eva Anna Paula Braun was from a Bavarian family, the second daughter of schoolteacher Friedrich Braun and Franziska Kronberger. At age 17 she took a job as an office and lab assistant and photographer's model for Heinrich Hoffman, the official photographer for the NSDAP, Hitler's National Socialist German Worker's Party. It was at Hoffman's studio where she met Hitler in 1929. Clearly infatuated by Hitler Eva would slip letters into his pocket. Gradually a relationship developed between them which remained secret except to close family and Hitler's closest associates. It was a lonely relationship for Eva who attempted suicide several times; however Hitler's personal staff looked down on her as self-centered and spoilt. She gradually improved her stature and nature over the years until she was viewed with approval by Hitler's staff and close friends.

Adolf decided that he could never have children of his own, because the burden of following in his footsteps would be too harsh on them. "I must write you these words so that you will not feel sad over our end here in the shelter. It is rather we who are filled with sorrow because it is your fate to live on into the chaos that will follow. For myself, I am glad to die here; glad to be at the side of the Führer; foremost of all, glad that the horror now to come is spared me. What could life still give me? It has already been perfect. It has already given me its best and its fullest. Why should I go on living? This is the time to die; the right time. With the Führer I have had everything. To die now, beside him, completes my happiness. Live on well and as happily as you can. Shed no tears nor be regretful over our deaths. It is the perfect and proper ending. None of us would change it now. It is the right end for a German woman." - Eva Hitler (last letter to her sister).

Strategies to prevent breast cancer

Perhaps because his mother died of cancer, Adolf has developed a deep interest in health issues - in particular cancer. The first program in the world to encourage women to perform breast self-examination as an aid for detecting breast cancer in early stages was also launched in Germany, with active encouragement and approval of Adolf. His support for reform and modernization in medicine was seen by medical professionals in a positive light and most of them also joined the National Socialist Party. Abnormalities in a woman's menstrual cycle are also an indicator of cancer. Similarly women were encouraged to look for abnormalities of the menstrual cycle that helps to detect cancer at an early stage. More public education was made in this regard. German Museum of Hygiene in Dresden urged women to examine her breasts and look for abnormalities in the menstrual cycle to detect cancer at an early stage. This was done in other countries, only thirty years later. Germany was the first country which has made public health education. The public was warned against the dangers of radiation, mercury, cadmium and lead. Through media and school German people were advised to avoid using artificial food colorings and preservatives in foods and drinks. Instead, use of pharmaceuticals, fertilizers and cosmetics which were based on natural or organic ingredients was encouraged. Sixty years later, most Western countries still didn't equal the high standards of this program.

Lung cancer prevention strategy

Innovative research on the disease were made in Germany, in part with private funds from Adolf Hitler, who ordered a study from the University of Jena to determine whether there is a link between lung cancer and smoking. From sale profits of his book "Mein Kampf", he donated 100,000 marks for cancer research that he personally ordered in University of Jena. There is a link between smoking and cancer? Research results have shown that such a link existed and that led to the first anti-smoking campaign that was heavily promoted by Adolf. Adolf think so, and commissioned research which showed that it is so. Is a very strong and is likely smokers get cancer - as shown by the results of his research. Category smoking, lung cancer, all other types of cancer :

Hardened smoker 16,6. 8,8
Alot 5,8. 5,6
Medium 7,8. 7
Moderate 1,6. 1,4
A nonsmoker 1. 1

National Socialist scientist, Franz H. Müller published his research findings above. He is regarded as the father of the epidemiology of smoking. The study was conducted in 1941 on "Scientific Research Institute of the hazards of smoking, Friedrich-Schiller University established in Jena. This was the first such institute in the world. To understand the chart above, you see that a hardened smoker is 16,6 times more prone to lung cancer than a nonsmoker. Picture of Health campaign Adolf encouraged people to avoid alcohol and nicotine, and food to eat and drink fresh and healthy. The scientific evidence to support its initiatives, Adolf has laws prohibiting smoking in public places.

He began a campaign to tell people how dangerous is smoking, and tobacco consumption has declined in Germany. This was the first official anti-smoking campaign in the world.

- Smoking was banned in the offices of the Air Force, postal services.
- Smoking was banned by uniformed police.
- Restaurants and cafes were prohibited from selling cigarettes to women.
- Tobacco coupons were denied to pregnant women.
- It was illegal for anyone under 18 to smoke in public.
- Advertisements for tobacco products were strictly regulated.

Adolf said: "Before going into retirement, I shall order that all the cigarette packets on sale in Europe should have on the label, in letters of fire, the slogan: 'Danger, tobacco smoke kills; danger: Cancer.'" During the war tobacco rations were distributed to German soldiers. Adolf ordered that it be given in a manner that would dissuade soldiers from smoking. Smokers were given six cigarettes per man per day, but non-smokers got chocolate or extra food. Women in the Wehrmacht were not allowed to smoke at all. The phrase "passive smoking" was coined by Fritz Lickint, author of Tabak und Organismus ("Tobacco and the Organism"). He collaborated in this book with the National-Socialist Anti-Tobacco League.

Because of strong National-Socialist support for Science and medical research, most scientists and biologists became NSDAP members. Germans were encouraged to take exercise, eat plenty of vegetables, drink mineral water instead of alcohol and stop smoking. To reduce breast cancer, women were taught self examination. Nowhere else in the world had such a government sponsored health campaign existed up to that time. When the Allies invaded Germany at the end of World War II, on seeing the terrible hunger and deprivations amongst the destitute public, they promptly imported 93,000 tons of tobacco to get Germans smoking again.

BURNING

This is a photo of a gas chamber.
If you don't see it, it means you're
an antisemit

It takes seven hours to cremate one body. Every 70 hours or so the oven must be re-cored, which means downtime. Simple math tells us that it was impossible for Germans to have cremated 6 million. So let's surmise 4 million, with the rest shot and buried in pits.

Four million bodies cremated at seven hours apiece using 1940's technology? Where did the gas come from to fire the crematoriums? Germany was nearly out of oil and gas, and just about everything else. In fact, the 1944 'Battle of the Bulge' failed only because the Panzers ran out of fuel!

According to my simple math it takes 28 million oven-hours to cremate 4 million bodies. Tell me: how many ovens and how many years would that take? Each cremated body renders down to a quantity of ash. Let's say two pounds of ash per body. That's 8,000,000 pounds of ash. Where did those ashes go? They couldn't all have gone into rivers, but even if they did, where is the residue in the river bottoms? If the ashes were buried in pits, simple infrared scans would turn them up. You can't hide 8,000,000 pounds of anything. Nothing has shown up yet! The additional question of teeth and bones, which must be ground by mechanical means (common cremation procedure) makes the whole issue ridiculous. But in this day and age of mythology, who cares about logic or evidence!

Even so, let's say 6 million Jews died by any means. Pit killings in the East by both Germans and Russians, disease, hunger and etc. Even if 6 million Jews were magically exterminated, there were over 50 million people of other races who died in World War II. Any school kid thinks 6 million Jews died at the hands of Germans, but ask him how many Americans or Russians died, or how many Germans died in World War II, and he will give you the 'deer caught in the headlights' blank stare. In fact, given today's education standards, he or she might even say "it just doesn't matter."

If you don't like genocide, don't go to war! War IS genocide, particularly for White people. Remember, the Jews badgered Wilson to enter World War I. This prolonged the war and created the loss, and then horrible conditions, for Germany. That led straight to Adolf Hitler. Then the chickens came home to roost -- bad karma which the Jews had created for themselves! Today the whole world suffers because the Jew badgered British government's Balfour Declaration gave Palestine to Jews and Hell to Palestinians. Yet again, the Jews are hated worldwide. Jews are their own worst enemy and "what goes around comes around." It's just too bad that so many others must suffer to satisfy the greed and power lust of Jew leaders.

DER STÜRMER INTERVIEW

Give us a short history of the band ? And the line-up.

Der Stürmer formed in 1998 by Jarl Von Hagall, Commando Wolf and Hjarulv Henker from the esoteric need to promote the Heathen/NS Values and beliefs. Musically we're influenced by Hordes such as Spear Of Longinus, Schwarze Sonne, Abs Conditus, etc. Apart from this, our strife as a band is IDEOLOGICAL and NOT MUSICAL. The line-up was, is and always will be Hjarulv Henker, Jarl Von Hagall and Commando Wolf, with additional volunteers on drums...

You curenly working to a new album, tell us something about it?

It'll contain 9 tracks of War NS Black Metal and it will be called "Transcendental Racial Idealism". It is planned to be recorded and released sometime in 2011.

Tell us thee greatest realease of yours ?

The one that hurts the judeocratic liberals the most, that's the best...

Do you have any mentors on the metal scene ?

No...

How is the NSBM scene in Hellas ?

Apart from Der Stürmer, Wodulf, Darkthule, Iron Youth and Shadow Order, there is nothing else...

What are your favorite gigs you participate ?

All of them so far, but especially the gigs in Finland were a manifestation of pure hatred, proving that true Black Metal is still dangerous and alive.

Any future gigs ?

There are many plans for future gigs, but we'll start organizing things when the drummer is capable...

With what bands do you have good relations ?

ABSURD, DEATHKEY, FROSTKRIEG, MASSENVERNICHTUNG, DARK FURY, AZELSGARD, MARTIAL, BILSKIRNIR, ARGHOSLENT, HUNOK, STORMHEIT, SATANIC WARMMASTER, GOATMOON, HALGADOM...

You had any problems with the law ?

Apart from CD confiscations, etc. from abroad, here in Hellas there are not any direct laws (yet) prohibiting NS or the display of Symbols. But we have witnessed the "democratic" forces in action in Germany during an ABSURD gig and some political manifestations. But what does not kill us makes us stronger...

You are members of The Pagan Front. Tell us what is The Pagan Front for you ?

The Pagan Front gathers the serious and active Aryan bands that are willing to fight against the degeneration that swallows Europe... The Pagan Front is still the last bastion of the True Black Metal spirit of Intolerance, Hate and Rebirth, the Fist in the face of the current zeitgeist!

What is according to you, the true meaning of paganism ? And the true meaning of NS ?

I won't separate the meaning of NS and "paganism" for they are the same: Preservation of Aryan Blood and Culture, the return of the Conquering Spirit in the Aryan European man, the utter annihilation of the jewish ruling system... NS is the extension of the Aryan psyche and Will on the material plane, so it is the only rightful ideological manifestation of the Aryan Man.

It is possible that European sons will turn at their old believes ?

Yes, but first he must get rid and purify himself from any humanitarian feeling of guilt and "self-righteousness", otherwise we'll see the coming of a hippie "pagan" society of multicultural mongrels. "Paganism" without racial consciousness is NOTHING!

Your thoughts about the future of NSBM scene ?

It must become as serious and active as possible. Just singing about Race and War for two demos is not enough for the War against the judeo-liberalist system. Unfortunately so far only a few NSBM bands have proved themselves worthy.

What are your future plans ?

Even more assaults and insults against the judeocratic liberal regime and its manifestations!

What you know about our country ?

The Transylvanian fullmoon glaring above the ruins of Sarmisegetuza, the Iron Fist of Vlad Tepes and the moans of impaled turks, the onward marching of Codreanu's Iron Guard.....

Last words are yours . Thanks for this interview !

Thanks for the interview and the support... Drive the falcatas deep in the gypsy and jew corpse and Purify your Land!!! Sieg Heil!

LACK OF ROLE MODELS FOR YOUNG PEOPLE IN ROMANIA

Most able to confirm this title would be a person of 80 years. In this way he would be able to criticize the three types of individuals from three historical periods that Romania has passed over the last century:

- Democracy-building before communism (until 1947)
- Communist period (1947-1989)
- Post-December-Democracy (since 1989)

In the first period Romanian society had as a model the occidental world, particularly French culture, from the simple French words entering the Romanian language, the behavior of the bourgeois class, clothing, until the capital city, Bucharest, acquired the name "Little Paris". Of course, things would have been very different if the Communist Party took the power. Little "French dream" disappeared suddenly and gradually introduced new social order. Officially, nobody where taking care of tomorrow, the three positions in the social hierarchy have disappeared, suddenly in their place were outlined 2 : the mob and the rulers (Of course this is not mentioned by those who regret the only party). From The first two old categories (the poor and middle class) appeared the mob. Those in this category understand that jobs are secured, as anyone could to take a house in an affordable, many were let on a ear and understood that, in one way or another, have provided care of tomorrow, even some of them stopped to think.

Because these individuals thought that they did not understand that life itself is a fight, a bet on who should win it (starting from money, wealth, social position continued to staff issues such as love and family, to the feel of patriotism), new generation, strong future where left to chance. Callous ridge is that all they, who were given away and refused to act or think, raise their voice now and start to criticize young people, they who were accustomed to sit and the party give, who refuse to think and talk, saying that others will do instead. Because of this, Romania's future is not black, but very black (both literally and figuratively). Demographic speaking, in about 50-60 years, Romania will have around 16 million inhabitants live instead of 22 million in the present, what is more sad is that both the Romans average two children per family while the Gypsies living in infants and 7-8. Some chilling statistics and many are sitting at beer.

More young people are thinking to emigrate (many called them traitors), especially for better pay what could provide a better life but also for respect, dignity and honor, being tired to be humiliated by the corrupt Romanians and gypsies in their country, on their land , on their money. Young Romanians not having models they idolize all kinds of baboons howling in a grotesque way and dressing much worst : men began to increasingly wear pink more often, while at the women began to dominate the tiny clothes, loud makeup, sun-glasses that looks like the eyes of a fly and bronze in an exaggerated manner. Many will swear me but in comparison with those above the young whites who have dread-looks or afro hairstyles and dresses are 2-3 steps above on the evolutionary scale than the individuals listed above.

For all of that we have to thank to the second aged generation, because they slept and refused to think and have put their shoulder to today's youth degeneration and transformation in the future through their indifference and ignorance. If they would have acted differently when the situation was then, if they had spoken properly, things would have been different now. Thus in the present youth are left to ignorance, stupidity, "gypsing" and bad taste. We don't need to live in the past, we must look at the past, respect the past, and live in the present and look ahead. Unfortunately many who now act like they've been through life, were not passed by at least one of these things.

BESSARABIA ROMANIAN LAND?

This title, that has become in our days a taboo subject for patriots, is splitting them in two camps: the unionists and the ones against the union. I say taboo because the unionists often believe that they know the absolute truth. Indeed, it is Romanian land, or if we were to look at the modern political map of Europe, it is an independent, national and sovereign state, same as Romania; a thing that many are not able or happy to see. As long as Vladimir Voronin was the president of the Moldavian Republic (who's grandfather was a Romanian patriot) there was also created or better said invented, a new language: the Moldavian language (which is nothing more than the Romanian language spoken with an accent and written in Cyrillic alphabet). For the more, Voronin published a book titled "My cause" which was a sort of "Mein Kampf" in a Moldavian fashion. Book in which he sustained the Moldavian cause comparing names of public persons that were for or against it. Ridiculous don't you think?

These would be the arguments of the unionists: land, the voice of the land...some of them having origins in these places. Very true. We have to give them credit. But on the other hand, I do have one thing to say: if we were to check the historic facts and look at a map of ancient Dacia, we should be claiming territories from Hungary, Slovakia, Ukraine, parts of Poland, Austria and Bulgaria. A thing that is impossible to be done. On the other side we find the anti-unionists which form a minority among nationalists, offering a very different and pessimistic view compared to the unionists. Their main reasons would be the human nature of our people and the poverty in which we are sinking, good arguments for fighting even more to obtain a better economy.

To tell the truth, both sides are right, the land is Romanian, fact that cannot be argued. And on the cultural side, I don't remember Mihai Eminescu, Ion Creanga, Vasile Alecsandri, Mihail Kogalniceanu, Alexandru Averescu, Grigore Vieru saying that above all they are moldavian and not romanian. At the same time, the country suffers from abject poverty in which 500.000 people out of 4 million work abroad. The money that this part of the population sends home represents their most important part in the Gross domestic product. Another anti-union motiv would be the fact that these days, many moldavians cross over fairly easy (due to the corruption in the presidential cabinet), live here for a few years, get an education and then leave to work in the west under European Union citizenship. It is also important to remember that these so called „brothers” in 1989 when Romania went through the revolution, they laughed at our demonstrations and called us gypsies.

Historically and ethnically speaking, when the soviets invaded Moldavia, many Bessarabian families migrated to other Romanian territories especially in Timisoara and Banat. They forged their names, enlisted in schooling programs for beginners (though most of them had superior studies and some were even teachers), married/re-married and after 50-60 years they finally told the truth about their identities. The ones that could not escape or were reluctant to leave their native grounds suffered massive deportations to Siberia and Kazakhstan (over 600.000 Romanians live here in present times), or partook in a strong wave of Russian influence in the new Socialist Soviet Republic of Moldavia. (1940-1991). Ironically, today, the majority of the Bessarabian people feel superior than Romanians and regard us like slaves while they bask in an illusion of nobility.

What is even more worrying is that many of us create NGO's meant to help them while they defy us. While we see and welcome them as brothers, they take advantage of all the facilities our already corrupt state creates for them and then run like there is no tomorrow when they're done. But the NGO's point of view is very different on the subject. They surpass one another through ridiculous actions like filling all the walls, fences, blocs of flats with posters and stickers; they organise hip hop concerts and picket Russia's and Moldavia's embassies using protests and manifestos that only feed the secret services and the IRS. (Romania is known to have one of the largest number of secret service agencies on the planet).

And on top of these actions, do you think that the Russian officials care about these protests? Of course not. They get the same pay, same advantages, and the same immunity. As an example: after the elections in Chisinau in 2009, the protests that broke out claimed many victims as 100 policemen were wounded, civilians were killed in police stations and 193 people were arrested, while the very naive unionists in our country think they can change everything by waving a flag and gaining the attention of a scandal hungry press.

It has come to my attention that in Romania, if you partake in certain colors like the ones on the flag or even black, and choose to wave your nation's flag, you only feed the IRS and other snitches or just be portrayed as crazy on the news. I ask myself, if Stefan cel Mare (Stefan the Great) talked to his soldiers about the greatness of Moldavia or about the Union that had to be done with the other Romanian states? If he were to be alive today, would he send instant messages online about a gathering in the center of the city or would he take to arms directly? Or would he be speaking Moldavian instead of Romanian? When Mihai Viteazu achieved the Union for the first time in the history of the 3 states in the year 1600 he called them The Romanian Principates, not the Valahian Principates.

There are a few things I would like to point out:

1. We have enough problems in Romania: the economic crisis, ethnic and cultural differences, corruption, incapable politicians; we do not need to take on the problems of another state that is incapable of solving its issues while only a small percentage of its people actually want a union while the bigger percentage absolutely refuses. I cannot be in favor of this union as long as they obtain citizenship very easily and then defy the ones that gave it to them, while other Romanian communities in Serbia, Ukraine and Bulgaria have a very hard time getting it and the Romanian state is silent regarding the abuse of its own children.

2. Another issue to be looked at is the Russian mafia which is present in Moldavia but not yet influential in Romania. But once the two states would be united, on top of the abject poverty in the west, and the gypsy clans in the south, we would also have a problem with the new vodka scented criminals.

3. Throughout history, the ones that were victorious in battle were the ones who have acted out, ran to arms, not the ones that waved a flag, talked about problems and created a few catchphrases. When you watch the news and see all those young people shouting out „Bessarabia Romanian land” do you think they are willing to spill blood for the union? Very few would be willing. Most of them haven't even set foot in Bessarabia, but partake in the protests as a way to be fashionable, to go with the trend and have something interesting to upload on their social profiles online.

Reality is harsh. But when you meet such people, it becomes even harsher. Action not words. That is the way our ancestors built what we have. And some like to disrespect that.

TOM METZGER INTERVIEW

First of all Mr. Metzger tell us something about yourself and about WAR ?

White Aryan resistance was formed in 1980. After I had left the KKK and ran for United States Congress. It was a voluntary association of individual activists. I produced television shows, radio shows, pioneered the use of computers in the struggle, published a monthly newspaper among many other things.

We heard that you will candidate for Congress. What do you think about your chances?

I ran for United States Congress in 1980. I ran for United States Senate in 1982 and now I'm running for Congress 2010. I am running on a very small budget against two major parties. I am running as an independent working-class candidate. I will use the campaign to further my name identity here in the heartland. My chances of actually winning are quite slim but I will be able to gauge my support by how many votes I get. In revolutionary politics 1% is all you need the right kind of people. Other people can give you moral support and some financial support. My goal is to seriously hurt the two major parties. In this area we have nearly a one party system. Totally controlled by the Republicans.

Describe the NS movement from USA and tell us why doesn't exist unity there ?

There is really no serious NS movement in this country. It's just a Hollywood type operation. Uniform freaks and Hitler worshipers March once in a while around a city block while hundreds throw things at them. Most of these people have no real knowledge of National Socialism. National Socialism is passé anyhow. It must be Racial Socialism now. I don't accept the right wing anymore I recruit more on the left. The right wing in this country is totally compromised and filled with informants and agent provocateurs.

Who is the biggest enemy of our world ?

Biggest enemy in my world is the white race traitor. If the white race traitor was not doing the work of the Jew our problems wouldn't be that big. I believe we're in a white civil war. Right now the worst Whites are in power need to be neutralized.

Your favorite aryan warrior, quote him.

Charles Lindbergh "Our bond with Europe is the bond of race. If The white race is ever attacked incongruous the fence with every plane in the sky and ship in sea but not one white nation against another.

Do you think Lone wolf tactic is a good one ?

it's the only tactic that I can see has any chance in the foreseeable future. Our enemies are too strong for any kind of frontal confrontation and they are too strong for any democratic solution. The only thing that can be done now is ready ourselves for the ultimate struggle. Joining organizations that are filled with informants and agents provocateurs is suicide. Any type of frontal attack against the system is also suicide. Only lone Wolf and unconventional warfare will have any chance as time goes on.

Some words about our teacher David Lane ,Bob Mathews and The Order.

I knew David Lane since his early days and actually had planned to travel to his prison just before he died. Actually I believe he was murdered. Bob Matthews was a great man but for security reasons I can't tell you everything I know. I have visited some of the order members such as Richard Scutari in prison.

"We had a run with the skinhead thing, and it was fun. But then I said, well it's time to let your hair grow up, go to college, get a good education, get as high as you can, in the industry, military, police, whatever you can do and wait." It's your quote. Tell the readers what exactly must wait

that was over 20 years ago. I told the young people that we were not going to get very far using the skinhead method. It's the same with wearing KKK robes,, or ns uniforms. it only works in the streets and not that well there. We need people in power positions. That takes educated young people, well-dressed people, well spoken people but with a revolutionary heart.

What is your opinion about Romania ?

I'm very sorry my education on Romania is very thin except to know you have a lot of problems with gypsies. I need to find myself some travel logs about Romania.

We wish you good luck in campaign for congress. Last words for all white brothers & sisters from around the world ?

Thank you also. And much success with your endeavor.

Tom Metzger

TODAY'S LEGIONNAIRISM

After the fall of Ceausescu's communist regime, with the pseudo-freedom of thought and speech, began to open their eyes new formations like the so-called "right wing". The first 13 years of "new democracy", there were no clear laws to directly condemn the activities or crimes such as "racist or xenophobic manifestations", "use of Nazi and racist symbols", "Nazi propaganda", or something like that. Once the Constitution passed the Parliament in 2003, were aligned and placed some "legal passages" which directly condemn those "criminal acts."

What I mean is that because of these laws, associations (often on paper apolitical) and political groups have masked such doctrine misleading authority and part of it public opinion. All these groups and organizations are founded, led at hierarchical level taken by the former communists "converted" overnight to nationalism, generally to the so called christian-nationalism. This fact hit the "the Romanian national movement" in two points:

1. Many scum switched to nationalism (former commies, painted gypsies and even people whit kike ancestry), which has "managed" to keep away a lot of people who really believed in these ideals or competed persons. All sorts of stupid and suspicious entered the "movement" that destroyed confidence between "comrades" (word synonymous with a famous term for Romanians "Tovarași").
2. Those who wanted to join have preferred to remain on the outside than to get in trouble because of such groups and have been forced to cooperate with the authorities of New Romanian Communist State voluntary or not. About the newcomers, Christianity in terms of national and the bi-millenary rromanian tradition they accept almost all of those who have vague knowledge about something of our history or know two stanzas of the national anthem (like football players). Regarding the ethnicity, things are treated fairly fragile: they accept all people, almost of all races. Reason ? Simple: Christian dogma of religion say that all men are equal in front of God. So long as they believe that they are Romanians (or lets better say they claim they are). Everything is fine with all the necessary risks.

The 2nd question would be put on those who are still thinking to join such a movement, is that this doctrine is a paradox in terms of anti-Semitism : Christianity is an Abrahamic religion (along with Judaism and Islam), so is non-European. Particularly is a Jewish sect, which has its origins in Judaism. ALL first Christians were ALL jewish (Hebrew). Any person with logical thinking will realize that you can not hate jews, and worship a kike instead. To this fact the historical aspect is added and the Legionnaire movement between the period of the 2 world wars is brought in the discussion.

The difference between the true Legionnaires ant the new Legionnaires is that the firsts despite somehow childish doctrine were patriots in the true sense and even act as such, the latters being just a bunch of buffoons. Speaking of the people ho do wave other origins than Romanian ancestry (especially Gypsie racist) they still have a ridiculous explanation : Legionnaires had nothing against Gypsies, many Legionnaires wore Gypsies, and even Hebrew. In the excuses of the Judeo-Christian Guard doctrines, the reply might be a proven history of ethnographic structure of that period: that time the Gypsies were not a threat, they are few in number compared with today's worrisome figures, but rather those of the same blood with their prophet.

Along with this suspicious multi-culturalist's dressed in patriotic clothes, appears from time to time some teenagers with national-socialist views. Those are accepted if the organizations are in need of members to increase their numbers . The next step is to brainwash them and indoctrinate them as they will to be much easy to control. If someone wakes up and starts to have an attitude as a nationalist (in the true sense), often they kick them out or force them to leave. What the world should se is that they are wolfs disguised as sheep. Event if they are registered as simple non-governmental organizations (NGO) or simple cultural associations. They do nothing more than to register in the database of Informational Services the nationalist youth and calm them down.

THE LEADERLESS RESISTANCE CONCEPT

In the next lines we will talk about "leaderless resistance" and we will demonstrate that even if the concept doesn't have a control center or a conductive hierarchical structure type that, does not mean anarchy.

History of the concept (Background):

It was developed by US colonel Ulius Louis Amos, former US intelligence officer, in the early 60's. Amos, who was an anti-communist, saw the concept as a back-up plan for a possible communist invasion of United States.

The concept was revived and popularized in an essay, published by the anti-government activist and member of the Ku-Klux Klan Louis Beam in 1983 and 1992. Beam says that Leaderless Resistance is a technique that can be used by white nationalists to continue the fight against the American government, despite the overwhelming imbalance of power and resources. Beam argued that the hierarchical pyramid type organizations are extremely dangerous for their members, especially when they are involved in a movement against the government because the disclosure of the command chain is light. A more viable approach would be the possibility to convince people with similar beliefs to form independent cells without tight communications between them, but which generally operate in the same direction.

Examples:

Leaderless Resistance at the right wing organizations:

The best example of the concept is Combat18. C18 was formed in the early 1989, when it supported the British National Party (BNP). Starting from 1992, they began publishing the "Redwatch" magazine, which contained names and addresses of the political enemies, mainly the Anti-Nazi League and British communists, and pictures of those. Because it was involved in violent activities and was also against electoral politics, the group separated in 1992 from the BNP.

WAR (White Aryan Resistance) is another example of the leaderless resistance concept. It was founded and led by Tom Metzger, a former KKK leader, in the early '80s, under the name of WAPA (White Aryan Political Association), shortly changing their name to White American Resistance (WAR) and later the word "American" was replaced with "Aryan".

Another example could be given by the modern KKK, shown by many as an leaderless resistance example. Also there are other sites or organizations acting on their own, under the generic name of "lone wolfs".

Example of the concept can be found in other situations, not only in right wing organizations. There are organizations that aimed issue or animal rights or liberation, campaigns that haven't got a leader, only local coordinators, against animal hunting, ecologist structures and campaigns, radical environmental organizations and anti-abortion militants.

Leaderless Resistance is also well adapted to the terrorist objectives. The islamist organization Al-Qaeda is a perfect example of organized cell structures. The organization may look or could be pyramidal, but its sympathizers, who declare that they do in the name of the network, act in an independently and spontaneously.

Considering the clandestine cells are small and very easy to set up models of Leaderless Resistance. The much publicized terrorist attacks on twin towers in New York or London subway in 2001, respectively 2005, were made up by cells of Leaderless Resistance, individuals who acted in a spontaneous way of linking of fundamentalist islamic doctrine but on their own initiative.

Online Activism:

Being on law way to spread ideas and political messages, the internet makes an great tool of the best example of the concept. The best examples can be given by the Redwatch sites or NS forums.

Conclusions:

Leaderless Resistance is also called ghost cell structure because it does not leave traces of his activity as money trails or material forms of recruitment and formation. The kind of things stick completely at Leaderless Resistance, the effects if their actions marked globally by the media, have the effect of advertising on their membership or transmission of messages or ideas.

The internet provides those who want to obtain information, new challenges. A cell may be formed by a single person (individual cells), which can communicate, publish or spread information online in an anonymous or semi-anonymous way, that can be found by others through widely publicized systems even if it is legally and technically possible to see who is accessing what, is also virtually impossible to discern in a relatively short time if it is a real threat or just a curious person, a journalist or a search program.

Note:

A typical cell undercover works starting from a single individual to a small group of people. The main feature of the structure is that there isn't an exact communication channel between the cells (the implicated parts), which acts for the same purposes.

ANP INTERVIEW

First of all, tell us about the ANP history .

The American Nazi Party was first formed by Commander George Lincoln Rockwell in 1959. He divided the Party's activities into three "phases" - Phase One was utilizing the enemy controlled news-media to broadcast the fact that the ANP existed to the masses. Phase Two was the phase where we are now - organizing ourselves into a realistic organization that will and can contest low-level elections, Phase Three was the final phase of actually winning public offices, until we finally became the government.

What are your activities ?

The main activities of the ANP are in outreach literature efforts, geared to REACH, EDUCATE and ORGANIZE our people to take part in REAL electoral efforts. For far too long the "racial movement" of all types have simply been "protest societies", which is useless because those in power could care less about the attitudes of White-Aryans - so, if the people whom you are protesting to, couldn't care less - why do it? WE NEED POWER, and we need to START at the BOTTOM - local elections - NOT these phony "star" campaigns, that we have neither the resources nor the people to win

Do you believe in victory by political way ?

Its obvious that the only other alternative is illegality, so we need to TRY the political route. In Europe the Racialists do this quite effectively - here in the U.S. its all "playing at make-believe" of some imaginary "revolution" that will never come - IF the participants are too cowardly or lazy to even get involved in open political effort. A person who refuses to "hand out a leaflet", will never "pick up a gun", no matter how much he pretends otherwise.

Have you problems with AFA or with other leftist organizations ?

We do not really have any "problems" with these young punks, simply because we do not go out of our way to make targets of ourselves, like these costumed, fantasy clubs do. These young people who get involved in these confrontations, are more like two "GANGS" going after each other, than sincere political activists. Its like they feed off of one another. When you are facing the ZOG, with all its repressive resources, a few punks are a small concern.

Something about the members, branches of ANP .

The ANP is made up of Full Members who are very dedicated Comrades, and Official Supporters who may apply for Full Membership after a year of being in Good Standing. We also have a uniformed Security Arm (SA) which is made up of physically fit men, who monitor our events as stewards. We also publish a 20 page monthly magazine - The White Worker - that subscribers may receive for a \$20 donation.

Tell us a quote who describe our Commander, G. L. Rockwell .

"I knew that I would not live to see the victory of our struggle, but I would not die until I had made that victory possible".

What do you think about present and how do you see the future of The ANP ?

After having been involved since I first joined Rockwell's ANP, back in 1967 at the age of 16 - I longed for the day when economic conditions would tear the blinders from our peoples eyes. That day has arrived, and is worsening daily! White people FINALLY no longer have the MATERIALISM to DIVERT them from this degenerate, Judeo-Capitalist sewer that we all exist in. And with the average, NORMAL population being aroused - we are finally receiving people beyond the "fringes", which brings in higher, more capable adherents. I am grateful that finally I can hope to see realistic success in MY lifetime. As we progress into becoming and acting as a real political Party, instead of a bunch of costumed, fantasy-based re-enactors of the long-gone 3rd Reich era - embracing issues that concern 21st century White Americans in an intelligent manner - I have real hopes of contesting and winning local elections, where we can build a solid base to eventually move on to bigger things. In this case, - worse IS better, for now - and I believe it IS going to get worse, world-wide. Whether WE get SERIOUS and DEDICATED enough to take advantage of it - of course, is up to us. I hope that we will , but the "racial movements" past record of insisting on playing-games, rather than acting like mature adults out to win the prize of the 14WORDS and Social Justice for the White Working Class, worries me a bit. White people now a days, are so undisciplined, materialistic, and selfish - even within this "movement" - that I wonder if they have that same spirit of SACRIFICE and DEDICATION that our ancestors had. Perhaps these hard-times will bring it out in them, I truly hope so - because IF they LOSE - they will only have THEMSELVES to blame.

Why is not Unity in USA ? I know you have a lot of organizations, groups etc .

I can only speak for myself and the ANP, but the answer is many faceted - (A) We are National Socialists, we want an NS America - NOT just a "racialist" one. We have an IDEOLOGY, few of these "others" do, beyond "white power" and "hating" others simply because they are not White. Hell, MOST of the ENEMY in control in this toilet-bowl of a society - HAVE PALE-FACES - the problem is the wrong kind of "white power" on the throne of power! (B) Another issue, is that far too many "leaders", and/or "prominent movement personalities" are LIARS, CROOKS, and CON-MEN. So many have actual LONG, CRIMINAL RECORDS, or are PERVERTS, and/or outright NUTS. These along with the inarticulate, foul-mouthed "bigots" are both an ENBARRASSMENT as well as a LIABILITY to connect positively with the White masses who we must have, if we are to succeed. (C) Thirdly, the ANP is the only organization that I am aware of in my 40+ year career, that has finally instituted QUALITY CONTROL in its membership. These other groups basically take in ANYTHING - to have more warm bodies, which is not only dangerous, but stupid - as the quality people leave, the more you allow in dysfunctional. That is the "WHY" that the ANP will not associate with these "other" factions of the "racial movement" It would be idiotic of us to keep a "clean house", yet expose our adherents to the human garbage that proliferates amongst these various carnival-like club lets.

What kind of propaganda you think is the best ?

I believe sincerely, after much experience - that POSTIVE propaganda works better than constantly harping on the "problems" of the non-Whites. As well, one must utilize ISSUES that the average Aryan is concerned about - something again that most of the "movement" avoids". ACTING like PROFESSIONALS in your use of words, and LACK of acting like a system inspired "posterboy of hate", ie. "slurs" and the like. As well, STRESS what your going to DO FOR THEM if you gain their support - rather than "what your going to do to the others" if you ever got the chance, like so many "racists" like to dream about. Lets face it - we have played the "race card" for decades - gotten basically no-where - now, its time to hit on OTHER ISSUES that Whites ARE concerned about, after all - its a GIVEN that National Socialists ARE "racially minded" without being a "one-plank" Party.

Is religion a problem in our society ?

As based upon Adolf Hitlers Mein Kampf - the ANP feels that "religion" or lack of, is a matter of personal choice. Another reason why the ANP refuses to aline itself with these "other" groups out there who stress their own little particular brands of "religious beliefs". NS is a POLITICALLY based ideology, concerned with issues of the "here and now". We leave "spiritual matters" to those theologically based individuals who find that need in whatever faith they choose.

United we stand ,divided we fall ?

I disagree, "united" with weaklings, fools or idiots would only bring disaster to the unwary or naive. The "strong man stands mightiest alone". Read Hitlers passage in Mein Kampf, about the "Eight cripples arm in arm, do not create one gladiator...".

Your opinion about: 1. David Lane, 2. Bob Mathews, 3. Tom Metzger

ALL of these men gave their ALL for the 14WORDS. I can only respect the Good Fight that they gave, and wish that their sacrifice had been more rewarded with the success that such efforts deserved.

Final words comrades ...

I will end by simply stating that as a Old Fighter as I am, I wish I could have more dedicated people standing alongside me and the brave men and women who are alongside me now, than we currently do. For decades I have been "crying out the message", and so FEW have cared - to where we as a Folk, now find ourselves to where the jews-media can boast that MORE NON-WHITE BABIES ARE BEING BORN THIS YEAR IN AMERICA, THAN WHITE ONES! To where the White Worker is LOSING all the gains made over decades, and that the Judeo-Capitalists are heading him towards South American type "peon" status - yet WHERE is his OUTRAGE? The bottom-line IS - will the White Folk SUBMIT or RESIST? Generations were BOUGHT OFF with "plastic pleasures" and the "good life" - HOPEFULLY - with this ending for so many, they will ARISE and RESIST. IF we could get ONLY 1% of the Aryan population REACHED, EDUCATED, and ORGANIZED into a SERIOUS, SINCERE, INTELLIGENT political effort - I truly believe that at the 11th hour - we could change the direction of where we are headed. But, it will take DEDICATION, it will take SACRIFICE, it will take HARD WORK - in other words "GETTING INVOLVED". And THAT has to be the final decision of the man or woman in the MIRROR. Sincerely, Rocky J. Suhayda, Chairman www.americannaziparty.com 88!
